# Make a lift-the-flap face

One attached flap, one hidden part. Let the child lift and close it as often as they wish. Looking, reaching and smiling count as participation.

## 1 Print and prepare

Print both pages on US Letter at 100% / Actual size. Mount the face and the flap below on sturdy card. An adult cuts only around the solid outline of the flap.

## 2 Attach the flap

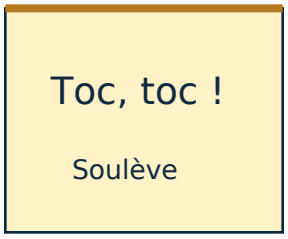

Place the flap over the nose on page 1, with “Toc, toc !” facing out. Keep the eyes and mouth visible. Secure its top edge to the face with strong tape to make a hinge; reinforce the hinge underneath. The flap lifts upward and stays attached.

## 3 Play together

With the flap closed: “Où est le nez ?” Pause and let the child lift it. When the nose appears: “Coucou, le nez !” Let the child close it again. Follow their pace; no spoken answer is required.

## Flap template · cut the solid outline

TOP EDGE: TAPE HINGE

Adult-supervised use. Check the hinge before each use and remove the activity if the flap or tape loosens. Try opening and closing the assembled flap before offering it to a child.
