FLUENT DISCOVERY

Mon visage : une pièce à la fois

Three repeat-and-replace mats for toddlers. Offer only one mat and its matching piece. Looking, reaching, removing and replacing all count as participation.

Prepare

Print pages 2–4 on US Letter at Actual size / 100%. Each page contains a face and its matching piece at the same scale. Cut around the dashed rectangle beneath the face. Keep the two eyes together as one piece.

Make it reusable

An adult can mount the piece on sturdy card and attach hook-and-loop fastening securely. Supervise throughout; do not offer loose pieces to children who mouth materials. Check the fastening before each use.

Follow the child

Let the child remove and replace the piece. Say the word as they act: “Le nez.” Pause. Then: “Tu remets le nez !” Invite speech without requiring it.

One word at a time

Nose mat: “Le nez… voici le nez !”
Mouth mat: “La bouche… voici la bouche !”
Eyes mat: “Les yeux… voici les yeux !”

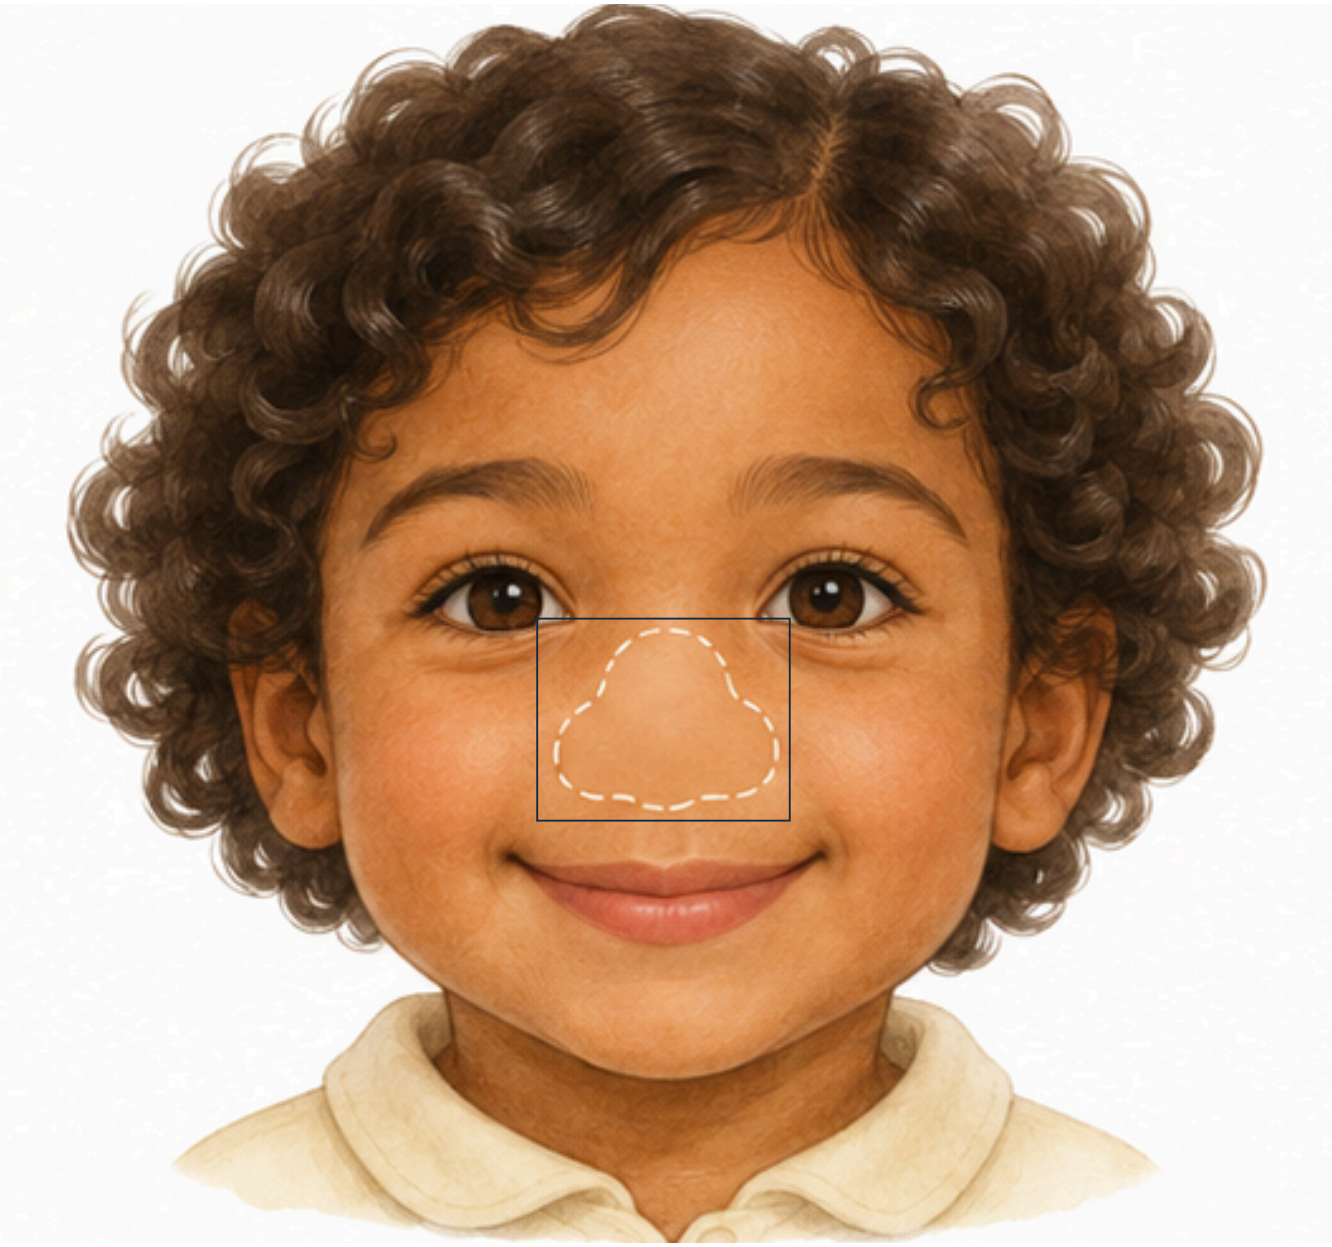

Notice before extending

Watch what the child returns to. Keep the same mat while it interests them. Introduce another mat separately when ready; the three-piece face is a later option.
